### 8. EXPOSURE CONTROLS\PERSONAL PROTECTION

#### Components with workplace control parameters

Components	CAS-No.	Value Type	Permissible Conc.	Basis
Ethanol	64-17-5	TWA	1000 ppm 1,900 mg/m <sup>3</sup>	NIOSH REL
		TWA	1000 ppm 1,900 mg/m <sup>3</sup>	OSHA Z-1

**ENGINEERING CONTROLS:** Provide exhaust ventilation sufficient to keep the airborne concentration of this product below its exposure limits. Exhaust air may need to be cleaned by scrubbers or filters to reduce environmental contamination.

#### PERSONAL PROTECTIVE EQUIPMENT

**Engineering Measures:** Minimize workplace exposure concentrations. Use only in an area equipped with explosion proof exhaust ventilation. Use with local exhaust ventilation.

**Personal protective equipment Respiratory protection:** General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits. Where concentrations are above recommended limits or are unknown, appropriate respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.

**Hand protection:** Impervious gloves

**Eye protection:** Wear the following personal protective equipment: Safety goggles

**Skin and body protection:** Select appropriate protective clothing based on chemical resistance data and an assessment of the local exposure potential. Wear the following personal protective equipment: Flame retardant antistatic protective clothing. Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc).

**Hygiene measures:** Ensure that eye flushing systems and safety showers are located close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use.
